		<b>totals</b>								
		w/discount	<b>book</b>							
		\$ 1,399.20	\$1,436							
		Shipping for 1 item was \$5.68								
		Double that for the bulk would be roughly \$11.36 (guessing here)								
		You would save on the additional 30 items for a savings of (30 x 5.68) \$170.40								
		If I sell you all of the above at \$1400 I lose \$201.86 in fees								
		We can talk about removing items if you like.								
		I am willing to split this and make the sale price \$1500.								
		If you would like to move forward it will take me some time to scan everything...
